

Harbin's Residency Program

STATEMENT OF CONSCIOUSNESS

Harbin Hot Springs is a center where we can experience the beauty of nature while exploring our potential as human beings. Our resident members operate this retreat and workshop center as a service to others, with common values guiding our actions.

TOGETHER WE CHOOSE...

- To recognize our reliance on this land, water and air, and be responsible in our stewardship of it;
- To provide an atmosphere of safety, comfort and quiet, encouraging all to awareness of their own being;
- To welcome people of diverse cultural, economic and social backgrounds;
- To create a place where the human body is nurtured, respected and celebrated;
- To behave harmoniously, bringing communication, respect, integrity and love to our daily interactions;
- To explore and present alternatives in the areas of human potential, bodywork, relationships and holistic thinking;
- To cultivate lives of spiritual awareness and presence, while encouraging others to do the same;
- To manage our human and financial resources in a way that will permit the improvement of Harbin and the support of related projects;

**IN ALL OF OUR WORK, DECISIONS AND INTERACTIONS, WE CHOOSE TO USE
HEART CONSCIOUSNESS AS OUR GUIDING PRINCIPLE.**
